Justin Kessler

Full Stack Software Engineer

Orlando, FL
justinkesslerio@protonmail.com

Full stack engineer with 5+ years building web applications, from high-traffic public sites with millions of visitors to internal data and analytics tools. Works end to end across TypeScript, React, Node.js, SQL and AWS, and currently builds real-time and AI-driven products as an independent engineer.

EXPERIENCE

Independent Software Engineer · Freelance · Remote — Nov 2023 – Present

- Design, build and deploy full-stack web applications end to end with TypeScript, React, Node.js and Bun, from PostgreSQL schema and authentication to UI and hosting on Vercel.
- Build real-time, data-visualization and AI-tooling products, including the projects below.

Full Stack Developer · Launch That — May 2021 – Nov 2023

Media & SEO company · Orlando, FL

- Led development of **Disavowl**, a web app for categorizing and filtering millions of backlink URLs; rebuilt URL processing on AWS and MySQL and sped up search with an object-oriented JavaScript redesign.
- Optimized **Reportaroo**, a financial analytics app, to pull from hundreds of thousands of financial data points and turn them into data insights, reworking MySQL queries and data storage for faster retrieval.
- Led the replacement of jQuery with vanilla JavaScript across public sites with millions of visitors, including 50+ script files on Asbestos.com.
- Kept high-traffic sites fast and stable using AWS and Google Cloud, and built custom WordPress plugins and PHP scripts for data collection.
- Led a consolidation dashboard for customer analytics and comparison, and revamped internal sign-up and login so new employees got access faster.

SELECTED PROJECTS

Fable · Agentic AI project manager — TypeScript · React · Node.js · Zustand

- Kanban boards that scaffold repos, run their dev servers, and send tasks to Claude Code or Cursor as prompts.

Afterhours · Real-time multiplayer poker — TypeScript · Bun · WebSockets

- Server-authoritative No-Limit Hold'em for up to 6 players with side pots, bots and action timers, plus three casino games on a shared wallet; tested against 250 randomized hands to prove chips are never created or lost.

Income Atlas · U.S. income data map — TypeScript · React · D3

- Interactive Census income map with state-to-county drill-down, three income measures and trends since 2010.

Pizza Boyz · Restaurant site & menu admin — React · Tailwind · Supabase

- Mobile-first menu site fed live from Supabase, with an owner-only admin dashboard for editing the menu.
